FERTILI 2 BR 8 2

We have concluded after mature deliberation to sell

THE STAR PHOSPHATE

again this season, for 400 pounds of middling Cotton, deliverable on or before November 1st, 1876, or for \$47.50, r ayable on or before May 1st, 1876. We now assure our friends that on account of the low price of Cotton at this time, we do not expect to make much money on the Guano, but in consideration of past favors, we are willing to run the risk of making a small profit his season, besides it seems to be the universal opinion among farmers that the price of Guano ought to be governed by the price of cotton.

THE STAR

stills retains its high and unadulterated standard. WE SELL NOTHING We are also agents for MAPRS' NITROGENIZED SUPER PROSPEATE MAPES' LIME. This is comparatively a new Fertilizer to our Farmers, but calling at our store for a pamphlet with testimonials, Farmers will soon know what we are se'ling.

We refer to such men, who have used our Fertilisers, as R. J. Ivey. Wake county. R. Rand, B. Alford, lewart, Harnett county, Johnson. Poe, Chatham county,

A WILL CASE. If there is anything a rich man's kin will fight for it is for his will when he is dead. The case decided Monday by the Suprem Court of King et al vs Kinsey et al from Jones county was when the deceased, an old man, made his will and left his property to Fannie King, a little child be called his own. The next of kin tried to set aside the will on the grounds that the old man could neither read or write and therefore knew nothing of what wis in his will. It was proved by the witnesses who wrote the codicils in the testators presence and at his dictation that he was of sound and disposing mind, and talked to thom of the will and what he wanted done, and the court held, Judge Settle delivering the opinion, that the law presumes a man knows what is in his will whenever he asks witnesses

Two hundred and fifty members are in attendance, including fifty Ladies. Master's address treats all subjects for the good of the order. He urges patrons throughout the Butte to economise in purchases, sales &c., to raise more supplies on the farm. MEETING OF THE MERCHANTS. The merchants and business mea-met at Metropolitan Hall last night to consider the indictments by Solicitor Harris for failure to list their tax on the first day of January 1876.
Jordan Womble was called to the chair and J. C. Marcom was made Secretary. A committee consisting of J. H. Enniss, J. C. Palmer, W. B. Hutchings, Len. H. Adams and B. F. Cheatham was appointed to consult with a lawyer and get opinion whether or not the indictments could be fought, and it was also determined to get the names from the court house of all the parties indicted. A committee also waited on the merchants present and took the names of such as were willing to share their proportion in the fee for engaging a lawyer. Some thirty or forty of the pound, corn 20 cents a peck, oats 75 cents and wheat bran 35 cents a bushel, at Woollcott's open front store Wilmington street.

A left handed man who plays on a banjo was in town yesterday and bought a left handed banjo from Nat Brown's music store, He wanted it license on Monday the 3rd, and he was indicted, and knew of others who were indicted, and a number of men who were not in business at all had been indicted and required to give bond. It looked to him as if this was false imprisonment and something surely could be done with the Solicitor for it. Mr. Jordan Womble said his license wasn't dated; he heard one evening the merchants would be indicted the next day and he sent down and took

out his license, but the next day he was indicted. The stub in the Sheriff's office was dated the 11th but his license had no date. When he went to the Sheriff's office he was told the Solicitor was only going to indict from the 10th of the month, but it seemed he had since "taken them all in" by indicting from the first. Mr. White explained that the den said he saw through the whole thing. It was fees the Solicitor was after. No Legislature was foolish enough to require any large class like merchants to list their tax in one day; it couldn't be done; the law read "the first days" to everybody else but the Solicitor who could see no fee in it unless it could be made "the first day." The meeting adjourned to meet again
next Wednesday night. There was
a very good attendance and it comprised both white men and colored

A NEW TRIAL IN WILKES. In 1872 in Wilkes county a man named Dishman was Indicted for stealing a hog from one Bartlett Merllis. At the August term in 1875 Dishman appeared for trial under Judge Furches. The evidence was that Dishman was found by the witness at night in a still house lying on a pallet apparently alseep and three or four men sitting around the fire, and the head and liver of a cooked hog in a pot with a sheep skin thrown over it. On witness charging them with stea ing the hog from Merllis, the Cheathams said that Dishman stole it, and Dishman said the Cheathaus stole it. The defendant's counsel asked the court to charge the jury there was no evidence against Dishman. The court refused, and the defendant was found guilty and sentenced to two years to the Penitentiary Dishman appealed to the Superior Court, and the court has ordered a new trial. Judge Settle in giving the decision said he thought his Honor should have charged the jury in compliance with the prayer of the defendant, that there was no evidence to warrant his conviction as it was not shown that the defendant said or heard anything or even woke up, only that "he was lying on a pallet apparently asleep" when the witness entered the still house.

A. T. STEWART.
Sadie Richmond in her New York letter to the Richmond Enquirer says that among the most brilliant entertainments of the season have been Stewart's dinner parties on Fifth Avenue given to distinguished parties. Stewart's picture gallery is the finest in America. It was once his custom to open this gallery to visi-tors twice a week until some horri-ble wretch cut with a knife an eighty thousand dollar picture, and now once a month it is only opened for private exhibition. Stewart is of vast benefit to the poor. We learn, but not from Sadie Richmond, that he is now giving married men employ-ment as clerks at two dollars a week. And to think such a man sh have had ruined an eighty thou-sand dollar picture. Sedie says the rumor is that Stewart will bequeath his flue residence to the Union League.

New York Cor. St Louis Globe-Dem. High Neck and Low Neck. A Mo-mentous Question for the Ladies to Debate.

Young ladies have revived a fashion of twenty-five years ago, in the high necks and short sleeves, which are almost universally a pretty and becoming fashion for those who have pretty, well-rounded arms, and looks modest as well as girlish, but it is absurd for a woman of middle age, and no woman married or past thirty should affect it. American women at the North, young or old, never have taken kindly to lownecked dresses; the climate is against them, the drafty architecture of our public buildings is against them, and the traditions of a more or less Puritan ancestry are against them Our girls, until they have been abroad, always look more or less scared in a low-necked dress, and our women do not, like exhibitions of that sort, or they have not much to exhibit, or they wear flannel, like men, and dare not omit them. Whatever is the reason, high-necked dresses, that is to say boddices, cut square or V shaped, are always in the majority at balls and parties in New York city; so much so that a woman with a low dress, and especially if it is a very low one, is a mark for observation-is stared at, and looks isolated from the rest of the crowd. Even the ladies who have become accustomed to them abroad yield to the insensible pres sure and cover their shoulders with a "fichu" or lace cape. All bod-dices are "basque" and "cuirasse" shaped, usually untrimmed, except with a thick piping. Flowers are placed here and there, upon evening dresses at the left of the neck or the right of the boddice, on the line with the waist, and at the sides or back of the skirt, in perpendicular lines, but without stiffness. A curious effect was produced by the dress of a girl at a recent ball, who had evidently "followed copy" too strictly. Her dress was a tulle, puffed upon a gored foundation, and might have been pretty, but it was not, be cause it was too straight and stiff. Then a wreath of morning glories -of convolvuli, to give them the proper name-were straight up and down, all around, as if upon a number of strings against a fence in the coun-try, and the whole effect was so absurd as to make her the subject for

okes wherever she appeared. Crossed eyes made straight and natural in three minutes, and per-fect sight restored by Dr. Jones of London, now practicing at the McAdoo House Greensboro, where he will remain until Marc's, 6th. Dr. J. performs all the more delicate operations of the eye and ear, and cures diseases of the nose, head, throat and lungs. He is a graduate of the best Medical Colleges of Amer-ca, and Europe; his Diplomas from the same are suspended in his office.

ANI LIGNATION AND CURE.—Amelioration of the symp oms of a disease is of
course, one desirable object of medication,
and there are, no doubt, palliatives which
pos-ess considerable remedial efficacy.
The temporary disappearance of the indicia of a disease, in too many instances,
however, defude the sick into a belief that
they are cured. Many of those who have
borne grateful testimony to the permament remedial effects of Host-tier's Stomach Bitters, in cases of liver disorder, nent remedial effects of Host-tter's Sto-mach Bitters, in cases of liver disorder, carronic constipation, intermittent and re mittent fevers, urinary and rheumaticall-ments, have also recorded the fact that the temporary relief occasionally afforded by the medicines which they tried before using the great reacorative inspired hopes which were speedily dissinated by a return of the ma'ady. The Bitters not only re-lieve, but if persistently and regularly taken, cure the maindles to which they are dapted.

The reports of the decisions of the

Reporter.

Supreme Court of the State are a necessity to us. We not only are subjected generally to a delay of five or six months in getting the reports, but when we get them, we have to but when we get them, we have to pay the perfectly enormous sum of \$7, or \$8, per volume; now, this is an outrage. The New York reports, better bound and better printed, are furnished by the Reporters of that State at \$2.50 per volume. In most, if not in all, of the Northern States, the price ranges from \$2, to \$3, per volume. But by the arrangement in this State, the Reporter not only gets \$600 per year, for reporting the decisions but he has the copy right of the reports and has the power to sell them at his own price, the type setting being paid for by the State. The result is a system of extortion by which the whole Bar are squeezed for the benefit of the Reporter. I am told that he employs a member of the Rep. in your city who for am told that he employs a member of the Bar in your city who, for a pitiful compensation does all the work. The Reporter packets his profits, and, with elegant leisure delivers his reports, when and at what price he chooses. All other articles in the market are declining, but the N. C. reports increase in price, if not in value. Is there no remedy

Manufactories-Work for Our Own People.

RALEIGH, N. C., Feb. 16, '76. To the Editor of the News: I am glad to see you urging the

subject of manufactories upon our people. With your permission, I propose to give you a few articles upon this subject, and preface what I have to say by quoting the following from a late number of the Elizabeth City North Carolinian: Will our people never learn? Will we always suffer ourselves to be de-pendent upon the North? Will we

terial, year by year, and buy almost everything we use, from the hat on our heads to the shoes on our feet— everything from "a cradle to a cof-fin?" No country or people can prosper who do this. Let us take a new operate on, the foundation, the resources awaiting development. We need the talent and skill, aye and the will to subordinate and utilize them. We have too long been striving to make muscle compete with machinery. We see it stated that the per capita productive capacity of each man, woman and child in Massachusetts is \$400, excluding the gains of commerce; while in Tennessee it is \$96, in Virginia \$74, and in North Carolina about the same. In other words, each person in Massachusetts may spend as much as each person in North Carolina makes and have

manufactures, as the people of Mas-sachusetts, they could have an annual income greater by nearly \$400,000,-There can be but one remedy. We must have more enterprise, more skill. We must cease the ruinous practice of "selling the bide for a penny and buying back the tall for

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only one dollar per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. Always Cash.

The Blue Ridge Blade asks, "who has been appointed to succeed Gov. Graham as Trustee of the Peabody Fund?" We have heard of no appointment, and inquiry from gentlemen most apt to be informed, leads us to believe that none has been

THE Charlotte Democrat suggests with all due deference to the opinions of others, that Raleigh be selected as the place for the State Convention to nominate a candidate for Governor. And the suggestion is a good one, as Raleigh combines all the advantages of central location and ready accessibility. Nevertheless, we will not urge that point.

"THE NEW REGIME."

Now we fully understand our new brother of the press, and welcome him as a zealous ally. We ask no fuller or bolder enunciation of principle than the following:

We take it that our neighbor of the News has been in the harness battling for a new order of things ever since its establishment, and we propose to fight on the same line against the present Administration from the aspirant for a third term down to the meanest revenue ameller who ever crawled up a still worm. Now, if you don't know what that means, straight out Democrat, neither ilesh fowl, or any ways fishy.

A GOOD HIT.

The Monroe Enquirer, in speaking of the progress of the Western North Carolina Railroad pays the following just compliment to the spirit of the Republican party:

An exchange says that the Radicals told one truth during the Convention campaign, when they declar-ed, if the Western Railroad was ever built the Republicans would do it. That prophecy is now being actually carried out, as some two hundred penitentiary convicts have recently been sent up from Raleigh to work on the road-all negroes and Rads.

THE Eucalyptus Globulus, the Australian tree so much relied upon as a guard against malaria, was introduced at Wilmington to test its effects in that climate. The Review says it has proved a failure there, only one of those who planted the seed succeeded in growing the plants to a height of three feet, and at that period of growth found it could not be

The tree flourishes finely in California, and soon grows to a size to make it valuable as a timber tree. We do not think the experiment ought to be hastily abandoned on the Cape Fear. Many plants and trees we have growing and cultivated as annual crops, are of semi-tropical, origin. Time and perseverance have nated them and proved the elasticity of their nature.

WAHT will Morton try next? The committee sent to investigate outrages in Pike and Amite counties, Miss., which were welcomed by the rade as a fresh store of ammunition to their battery, and which led to a call upon the President for troops, report that after diligent inquiry they find no obstruction to the perform ance of collector's duties; that no resistance was offered to the authority of Federal officials; that United States Collector Redmond was advised on the eve of election to leave the county, but the hostility to him was per sonal, and not by reason of his office, and that there was no pursuit: that Mayor Summit was drunk when he signed the dispatch for troops, and that the charge was false, and there was no occasion for troops.

THE forger Winslow who escaped to Europe with the hope of enjoying his spoil in a country where he was free from the force of extradition treaties, committed the folly of going ashore in England. The silent. but swift messenger, the winged lightning clothed with intelligence, was there before him, and his greeting on foreign soil was that of a felon, and his welcome was to the hospitalities of prison walls. He will be returned a manacled captive to the some of his crimes, there to be stripped of that garb of respectability and sanctity under which he has de-

THE BLUE RIDGE BUADE, The first number of this journal is before us and fully justifies the anxious expectation which has attended the announcement of its publication. It is published in Morganton by Avery & Crowson. It fairly sparkles with that life which is the brilliant characteristic of W. F. Avery its editor, and bristles with that pungent wit which at once marked him as the salt of journalism in this State. The Blade is Democratic-Conservative. It could be nothing else in a county prolific of names conspicuous for de-

votion to liberty. The Blade good humoredly complains that the NEWS cut him off in the bloom of youth and beauty. The Blade was put on our exchange list some weeks ago and we were under the impression it was regularly mail-We found on examination this morning that in revising the galleys of our mailing machine, it had been accidentally omitted. No more complaints, brother Avery.

THE New York Daily Bulletin in a review of the population, valuation of property, taxation and indebtedness of the States, makes the following summary, which is applicable to the States alone, exclusive of the indebtedness of the general Government, and the taxes paid for its support:

From 1860 to 1875: Pop'lation has increased 41.19 per ct. Valuation has increased 46.48 faxes have increased 158 44

Debts have increased 37.99 This is the average exhibit for the whole country. If the South were viewed alone, its per centage of increase of indebtedness and of taxation would appear much greater .-But high taxes is the canker that is eating out the substance of the country. They are at the bottom of the public distress. The demand must be for retrenchment, and for the diminution of taxation.

THE Wilmington Journal quotes the expressions of two or three Democratic journals upon subjects of public interest, with the endorsements of their opinions by Republican papers, and asks "if Democratic Legislatures and Democratic Congresses are to be abused by friend and foe alike, how long is it probable that Democratic Legislatures and Democratic Congresses will continue in existence?" Neither the one nor the other should be shielded from criticism or condemnation when they deserve it. But we protest against this giving aid and comfort to the enemy by joining them in a crusade against our representative bodies, simply because a pet scheme of some Democratic editor has not been carried out, or because the upsetting drahm of bi-carbonate of soda in an of the whole mischievous machinery of the republican party, built up solidly during the past fifteen years, is not overthrown in a month, and another perfect structure erected in its place.

The Republican party will prove sufficiently formidable foes without providing them from our household.

THE Charlotte Democrat in referring in terms of satisfaction to the suggestion of the names of Gov. Vance and Gen. Cox for the Democratic Gubernatorial ticket, refers to old party names and feelings in terms which shows the strength of old associations and predelections. Those are attachments which can never wholly die out, and yet it were wisdom to forget them as soon as possible. The necessity of maintaining a united front in opposition to the party of carpet-baggers, scalawags and negroes has forced the whites of the old parties to stand together on one line. It is their only safety. If the old jealousies and prejudices which divided the Old Democrats and Whigs are encouraged, it gives the Republicans the opportunity they want, one in fact which they have sought and cultivated. Divide et impera is their watchword, and the sensitive jealousies of the old parties are easily played upon. Let us forget old quarrels, if we cannot silence old memories, for nothing survives of the old parties but those principles of republican honesty, which both are now united to restore against the opposition of the party which represents a system entirely new to constitutional liberty and to sound

In the Babcock trial, it would appear that the testimony of Bevis was conclusive of the guilt of the accused. He testifies that Joyce, one of the conspirators, showed him the Sylph despatch. With them, there was no misunderstanding of the meaning. There was no "woman in the case." It was a matter of business, a notification of safety. Under it, preparations were made to run crooked whiskey. It satisfied them that they would not be disturbed.

The point of the prosecution was to establish Babcock's connection with the ring. Those points have been clearly made out : the authorship and meaning of the "aylph" letter. established by Bevis; a correspondence between Babcock and McDonald, now a convicted conspirator,

under cover to Mr. Grimes, established by the evidence of Grimes; and the transmission of money to Babcock by Joyce, established by the evidence of Everest-three points, that if they do not produce a conviction, ought most thoroughly to tarnish the honor of the 'blue."

THE National Republican, the organ of the administration with that singular perversion of vision which often shuts out objects immediately before the eye, but makes that clear which is at a remote distance, has been unable to see the battle which has been fought in its presence between the President on the one hand. and the irate Bruce on the other, but devotes two columns to an onslaught upon the defunct Georgia Ku Klux, together with a laudation upon the shining honesty of the fugitive thief Bullock. The administration organ is not to be condemned for shutting out from its vision one of the most terrifying pictures that was ever presented to it. For if there is a defection in the colored ranks, what becomes of the Republican party? What becomes of the noble army of officeholders? And yet Bruce is terribly in earnest. He is past the period of cojolement. He has found that soft words butter no parsnips. The wool has been pulled out of his eyes. He see: , what every dispassionate observer has all along seen, and arouses to the comprehension that the negro voter has been made a tool and a fool of, and awakes in shame and confusion. Are there not other leading negroes in all the Southern States as sagacious and as proud of race as Bruce? Will they not also come to his conclusions, more or less speedily? Assuredly they will, and hence the Republican is anxious to shut out the hideous prospect, for with the loss of the negro vote, the sceptre departs from Republican Israel.

PERSONAL AND POLITICAL. The widow of General A. P. Hill is a resident of Richmond.

There are over twenty-five thousand graves in Blandford Cemetery at Petersburg.

Major Charles R. McAlpine, promoted to Major of the 61st Va. during the war for gallant bearing, recently died in Portsmouth.

The Binghamton Republican (republican) regards New York as a more republican State than either Pennsylvania, Ohio or Indiana. Dr. J. S. Sartori while dining with Mr. Ferrandini in Richmond last

A triend of Winslow is reported to have said to him a few months since, Why, Winslow, I should go usane if I owed what you insaue do," when he replied, "Oh, I don't owe much now, not so much by \$100,000 as I did a year ago." One morning last Summer says the same authority, he had a note of \$5,000 to pay before the bank closed at two o'clock, and not \$10 in his pocket or the promise of a single dollar, but he raised the money, and with apparently very little trouble, Having a note for \$10,000 from a wealthy Boston capitalist, he made

BRONCHITIS CURED!

The above cut represents DR. JONES SYSTEM of curing diseases of the Throat and Lungaj directing the remedies to the seat of the disease in the form of medicated air. Gives immediate relief, and effects a certain cure finalty, in the most pleasant manner without taking drugs into the Stolan.

DR. JONES, is now practicing at the Mc-ADOO HoUSE, Greensboro, N. C., where he will remain until the first of March 1876.

SYMPTONS OF SPECIFIC AND GENERAL CON-UMPTION AS IT PR. VALLS IN AMERICA. (COPY-RIGHTED BY DR. JONES.) 27 Favelievill

Ist Of the head—heavy, dull, aching over the eyes, sometimes extended back through different parts of the head, and causing a weight or heat, or soldness on top of the head, anapping and cracking noise in the cars, duliness of heaving—the them, anapping and cracking noise in the cars, duliness of heaving—the them escretion callects as the middle ear, closing up the eusischain tubes, producing deafness—the listing membrane being the same from the head through the whole allimentary canal and down to the lungs it has but to extend itself to affect the whole system. It becomes virulent in the ness cometimes, causing a tenderness, or producing offensive breath, discharges of yellowish matter and Ischart the hape of the nostrils, or if the partition bone is only affected, then the lechars are flat and when they discharge, which is generally after exertion, the nose is open, the patient breathes more easily ind the head feels more clear—the heaviness over the eyes and across the forebead is seldom entirely gone, but is aggravated by every fresh cold. This offensive disease is called Ozena, which has now assumed a tertiary form of cancer, destroying everything but the outside skin, sometimes letting the nose sink in, extending to the threat, d stroying the voice, etc., when the disease is called Is yingitis, Trachetis, Bronchitis, etc. In some persons this disease commences in the throat with the following symptoms—in others it commences in the head or nose and extends to the throat and poisous the whole system, creating nerally every other disease.

A collection of tenacious or slimy secretion falling down into the throat thrown out—tick ving, rasping, hoarseness and scraping to keep open the wind pipe; difficult breathing, oppression and soreness under the breast-bone; tenderness in the left side; rheumatic paisos between the shoulders; stiff neck on taking cold; palpitation of the heart; torpid liver; sometimes yellow complexion; general dull heavy feeling; extreme shortness of breath; soreness of sto nach-pit; bloa

men nearly the whole train of female dis-asse,) and gener I Consumption, emacia-flou, complete prostration, etc., with all of which, and many other symptoms, called by twenty different names, the suffer may exist a while.

Dr. Jones cures this Dangerous and In-sidious Disease by the Ærien system—us-ing specific medicines known only to him-self, applied to the diseased surface, in the form of spray. He relieves the sufferer in a fex minutes, and supplies the patient with all that is required to finish the cure at home.

EYE, EAR, NOSE and THROAT. Dr. Jones has made a specialty for fitteen years of the organs of sense. He is a graduate of the Homopathic, Alepathic and Eclectic Medical Volleges, and also of the New York Ophthalmic and Aural Hospital. His Diplomas from the same are unspended in his office, Room No. 28, McAdoo House, Greensboro, N. C., where he re-

OZOENA, AN OFFENSIVE DISEASE IN THE Nose, which eats away the partition bone, cestroys the sense of amell, produces green or vellowish isohars, the shape of the nostril—sometin es firt, often tainted with blood and matter; causes weight and dull sching over the eyes, head-che, loss of memory, giddiness, etc. This disease is often caused by neglected colds, by suppressed skin diseases, scro'nia, scallet fever, psoriasis, syphilis, and other con'agious diseases and is itself conlagious. It often extends to the throat, producing hourseness, bronchitis and consumption. It is a tertiary form of cancer, destroying the nose and throat when too long neglected. Dr. Jones is the only physician in the United Stetes who thomoghly understands curing this deagerous, offensive disease. He restroys the offensive smell in five minutes, and relieves the sufferer in every way at once, and cures the disease in a short time. For this disease Dr. Jones has special instruments with which to apply his specific remedies to the spot. Nasal Dauches and catarrh remedies generally drive this disease to the lungs more quickly. It is impossible for a physician who has but the usual medical education to suc-cessfully treat the Eye, Ear and Throat, and to succeed in cu ing those more diffi-cuit diseases of long standing, and perform the delicate operations which are frecuit diseases of long standing, and perform these deticate operations which are frequently necessary about the Eye, Nose, Ear and Throat; therefore, Dr Jones has availed himself of all the advantages the world effords to fit himself for his natural and chosen profession and of his success the reader may judge by the following testimonials:

Military Position in Spain. LONDON, Feb. 16.-From all information received here, the follow-ing seems to be the position in northern Spain; Gen. Quesada advanced on Sunday morning from Durango through Elaria unresisted, but found the Carlists under Gen. Carossa strongly entrenched at Elgueta. The strongly entrenched at Elgueta. The Alfonsists attached at 11 o'clock in the afternoon. After five hours' hard fighting on lines extending over a league, the Carlists positions were carried. The Carlists retreated upon Azepita with heavy losses. General Quesada pursued them as far as Vergara, which he occupied in force simultaneously with the operations Vergara, which he occupied in force simultaneously with the operations of Gen. Quenda. Gen. Loma moved from Marquina, breaking the Carlist lines on the river Deva. Gen. Mariones, advancing from the North, entered Zumaya and occupied the heights commanding Aya and Cestana. The Carlists are reported to be concentrating for a final struggle beconcentrating for a final struggle between Andoain, Tolosa and Asessi-

The Babcock Trial. ST. LOUIS, Feb. 16.—J. J. Brooks testified that he had had doubts of Hoge's integrity by reason of reports which came to him while at New Orleans. Hoge had failed to meet him at an appointed time and did not reach New Orleans until two days after he (the witness) had seized distilleries there. There were evidences at New Orleans that tidings

of their visits had been received in Several persons at Washington other than Commissioner Douglass knew he and Hoge were going there. Col. Dyer then offered some telegrams in the Clipper which the defense claimed were confidential dis-pacthes between counsel and client. After examining them the court

MIDNIGHT DISPATCHES.

CONGRESSIONAL.

WASHINGTON, Feb. 16.-The Centennial appropriation signed the nominations of Hodgkins, Collector of Customs at Rappahanock District, Va.; Webster, Denison City, Texas. The recent Revenue decision forbidding the issue of license to liquor peddlers applies to steam boats and ferry boats; but there is no intention of interfering with persons or firms doing such business now. Commissioner Pratt thinks the limting of Revenue collection districts to about one hundred will impair the efficiency of the service. The Star says the appropriation committee have completed the bill for the Internal Revenue Department. It

reduces estimates from 5 to a trifle over one million and consolidates 60 collection districts. The House bill extending the time for filing claims for additional bounty to July 1880 passed. The Committee of Foreign Attairs reported unfavorably on propositions to terminate the treaty of 1868 with North German Confederation. The amendment to the bill admitting Colorado, passed. It appropriates \$20,000 to pay the expenses of the Convention.

The special order, bill re-organiz-ing the Judiciary, was taken up. It provides a circuit court in every district and Court of Appeals within each circuit. The terms of the Courts of Appeal will beheld in Richmond, New Orleans, Louisville and St. Louis. The bench consists of a Circuit Judge and District Judges within the Circuit, except a judge who has heard the case below. The decision is final, except over \$10,000 which may go to the Supreme Court.

Senate.—The Claims Committee eported adversely on the bill to settle claims for advances by the several states for the war of 1812. The Judiciary reported adversely on Merrimon's bill to pay claims for conveying mails South before the

war.
The bill for selling timber land in California was discussed. Pending the discussion Edmunds said he was about to inquire what became of the regular order of yesterday, the case of Mr. Pinchback? The chair replied it was not called up yester day and had been succeeded by other business. Edmunds moved to postpone the pending bill regulating the sale of timber land and take up olution for the admission of Pinchback; he argued with the senator from Indiana Morton, that the question was of high privilege and freedy had been too long delayed. Morton said he did not press the resolution for the administration of Pinchback vesterday for several reasons, one of which was that several senators were absent and he desired that there should be a full Senate when the vote was taken. If the senator from Vermont, Edmunds desired to have the resolution taken up for the purpose of making a speech he, Morton would

not object.

Edmunds said he had never moved to take anything for this purpose of making a speech, he desired to get the case to a final determination. The little he had to say might occupy thirty minutes and it

Morton said if Senator Edmunds did not desire to speak he hoped the esolution would not be taken up. There was one Senator sick and he

Edmunds said that when the case of Pinchback was left on Monday the Senator from Indiana (Morton) was in the midst of some observations. As he seemed to be indisposed, he (Edmunds) moved for an executive session yesterday. The matter got displaced in some way during his (Edmunds) absence. If the Senate was to wait until the whole number of 73 Senators were present before taking a vote the case of Pinchback would never be settled. If any Sena-tor was ill who desired to vote on the side of Pinchback. he (Edmunds) would pair with him with pleasure, as he did not intend to vote on that side. He believed the Senate was as full as it would ever be in the ordinary course of events. He did not know how the case would be determined and he did not care how it would be determined except in the interest of law,

the Constitution and the facts. The question being on taking up the resolution, a division was called for, and resulted yeas 26, nays 24. Logan, of Illinois, demanded the reas and nays, and the motion to take up the resolution was lost, yeas

This school, having opened on the 17th of January, is now in successful operation, embracing a collection of good boys, a company of joyous youth, happy in their curroundings, happy in the advantages here presented, and happy in each others society. roundings, happy in the advantages here presented, and happy in each others society.

Willitary in its discipline and drill, and equipped for instruction in science, it is no less, on that account, a CLANSICAL SCHOOL, possessing in this PROMINENT FRATURE, eminent advantages.

With Associate Instructors highly accomplished in their respective departments, skillful and zealous, the Principal is assured that no department of the School whether of Ancient or Modern languages, English studies or Science can suffer.

The endorsement of MB. HU3H MORSON, JR., by Professors Gildersleeve, Peters at d Schele DeVere, of the University of Virginia, with the high appreciation which his scholarly attainments have commanded here; and the endorsement of Mr. D. 4. Wamilton by Col. Simonton, of South Carolina, with the record be has made for him elf as precically acknowledged by Col. Tew scholarly, and skill as instructors. With such co-operators, the Principal feels that he can prove the school to be all that a parent could desire or an enlightened public set timent demands.

For circulars containing terms and other particulars, apply to R. H. GRAVES, Principal, ja 25-im.
